### **I. Definitions.**

- A. For the purpose of this Bylaw, “earth” shall include soil, loam, sand, gravel, clay, peat, rock, or other earth material in solid form.
- B. For the purpose of this Bylaw, “Board” shall mean the Planning Board of the Town of Boxborough.
- May 07 C. For the purpose of this Bylaw, “abutters” shall be parties of interest as defined in MGL c. 40A, section 11.

### **II. Earth Removal Procedure.**

- A. No person shall remove earth from any parcel of land in the Town except in conformity with this Bylaw and any subsequent amendments.
- B. No earth shall be removed from any parcel of land in the Town without a written permit from the Board, and in accordance with the Zoning Bylaws of the Town of Boxborough.

Any person wishing to obtain a permit or to renew a permit to remove earth material from a property in the Town, or to use any public way within the Town for transporting such material from one part of a property to another part, shall file an application pursuant to the Rules and Regulation as most recently adopted by the Board.
- D. No permit for the removal of earth, and no renewal thereof, shall be issued until a public hearing has been held by the Board, as defined in MGL c. 40A, section 11, except in those cases specifically exempted in Section III-B. Notice of said hearing shall be given at least fourteen (14) days in advance in a newspaper commonly used for such notices by the Town, and the posting of copies thereof on municipal bulletin boards. The applicant, and all abutters as determined from the most recent tax list and annual street listing, shall be notified of the purpose, date, time and place of the hearing by registered mail.

In no case shall a permit be issued for a period longer than three (3) years. A permit may be renewed for up to two (2) years or lesser time as determined by the Planning Board after evidence is presented that all conditions of the expiring permit have been complied with and the work has been performed in

good faith. A public hearing may be required by the Planning Board for renewal of permits not otherwise exempted by Section III-C of this Bylaw.

### III. Exemptions.

- A. No permit shall be required for the moving of earth entirely within an individual parcel, and provided that no public way is used therefor, and no other Bylaw of the Town is violated thereby, and provided, further, that one or more of the following conditions shall apply:
1. Such earth moving is necessary in the construction of a building, a permit for which has been issued by the Inspector of Buildings.
  2. Such earth moving is necessary in the construction of a public or private road, walkway, bicycle path, bridle path or similar pathway.
  3. For construction of a water hole for fire protection.
  4. Such earth moving is necessary in connection with farm, garden or nursery operations.
  5. Such earth moving is necessary in connection with a cemetery.
  6. When incidental to landscaping, construction of a swimming pool, or similar activities in connection with an existing building.
- B. No earth work operation exempted from a permit under subsection III-A shall be conducted, maintained, and/or left in a condition so as to alter the natural drainage flow beyond the property; or cause dust, silt, soil, or other materials to be deposited on adjacent properties; or to otherwise cause nuisances, hazards, or other objectionable conditions detrimental to health, safety, or property values in adjacent areas. The Planning Board shall upon petition by an abutter or by any Town Official or Town Board, review the operation and may determine that, because of the nature and scope of the earthwork, an earth removal permit is required; or may require that the restoration standards contained in Section V-B of this Bylaw be observed. The Planning Board shall, in cases where the public health or public safety are threatened, request that the Board of Health or the Select Board take action to abate such practices or conditions as contribute thereto.

- D. Without a public hearing, the Board may issue permits for the removal of more than 200 cubic yards of earth for the following purposes provided the activities are not in violation of any other by-law of the Town.

1. Where necessary when in connection with activities exempted in subsection III-A when an access or earth fill has been created which is not needed or not useable at the site.
2. When such earth is not necessary in connection with the construction of a building, the amount to be removed to be limited to the volume of the foundations and basement of the building.
3. When such earth is not needed in connection with the construction of a private or public road provided that the quantities of earth removed shall be limited to the excess of cut and fill required to satisfy Planning Board standards with respect to width grade, and construction of the roadway.
4. Where the moving of earth occurs entirely within an individual parcel but where a public way is used for the transportation of the material; provided that, where it is evident that the scale of the operation would be greater than that normally anticipated under Items 1 through 3 above, the Planning Board may require a public hearing.

IV. General Limitations.

No permit shall be issued or renewed for the removal of earth in any location if such removal:

1. Will endanger the public safety, public health or constitute a nuisance.
2. Will produce noise, dust, or other noxious effects observable at the lot lines of the property in amounts objectionable or detrimental to the normal use of adjacent properties.
3. Will result in the transportation of materials in such manner as to cause traffic congestion, dust, spillage, noise, or other nuisances or hazards, particularly on residential streets.
4. Will result in the transportation over ways which will be unduly injured thereby.
5. Will result in a change of topography and cover which will be disadvantageous to the most appropriate final use of the land or to the use of lands adjacent to the site.
6. Will destroy any part of an unusual natural feature of the land including but not limited to the Boxborough Esker.

Trees or shrubs may be planted in order to provide screening, natural beauty, and to reduce erosion. The planted area shall be protected from erosion during the establishment period.
5. Upon completion of the operation, the land shall be left so that the natural drainage flow exits the property at the original drainage points or empties into the original drainage channel; and when it does so, the volume of runoff or flow at any one point is not increased above that which was normal for that particular point in the absence of the earthwork operation.

A performance bond, bank deposit, check or similar security shall be required for each area on which the permit has been issued. The amount of such surety shall be five thousand dollars (\$5,000) per acre of removal and restoration area depending on conditions at the site, or such other amount as may be determined by the Planning Board as necessary to ensure final compliance with the restoration standards, including the preparation of "as built" drawings required in V-8-6. ## **FIRE ALARM AND PROTECTIONS SYSTEM BYLAW**

### **Section 1. Purpose and Intent**

The proliferation of fire alarm systems monitored by the Boxborough Fire Department has imposed an increasing burden on said Department. In addition, the erroneous and mistaken use of fire alarm systems and those that are not installed, maintained or operated properly has resulted in increased responses and associated costs by the Boxborough Fire Department and is creating a hazard to the members of said Department and to the general public. The purpose of this chapter is to regulate the use of said alarm systems and to reduce the incidence of false alarms.

### **Section 2. Definition**

- (a) Alarm System: Any assembly of equipment, mechanical or electrical, arranged to transmit a signal to the Department of the occurrence of a fire emergency to which firefighters are expected to respond. For the purpose of this bylaw this would also include, but not be limited to, a fire protections system such as an automatic sprinkler or extinguishing system.
- (b) Approval: Approval by the Fire Chief or his designee.
- (c) Automatic Alarm Dialing Device: Any alarm system which automatically sends over regular telephone lines, by direct connection or otherwise, a prerecorded voice message or coded signal indicating the existence of a fire emergency.
- (d) Department: The Boxborough Fire Department.
- (e) False Alarm:
  - (1) Error or mistake. Any action by any alarm system permit-holder owning, leasing, operating or controlling an alarm system installed in any dwelling, building or place in the Town of Boxborough or any action by any agent or employee of, or anyone in privity with, said person, which results in the unintentional activation of said alarm system when no fire emergency exists.
  - (2) Malfunction. Any unintentional activation of any alarm system caused by a flaw in the design or installation of, or the improper maintenance of the system. This shall not include the activation caused by violent conditions of nature or other extraordinary circumstances, not reasonably subject to the control of the alarm system permit-holder.
  - (3) Intentional misuse. Any intentional activation of an alarm system when no fire emergency is in progress.
- (f) Fire Chief: Chief of the Boxborough Fire Department or such other officer as the Fire Chief may appoint as his designee.
- (g) Person: Any person, firm, corporation or other entity except the Town of Boxborough.
- (h) Town: Shall mean the Town of Boxborough.

### **Section 3. Administrative Rules**

The Fire Chief may from time to time promulgate such rules and regulations as may be necessary for the implementation and use of this bylaw and the installation of an alarm system and related components. These rules and regulations may be amended as the need arises by the Fire Chief.

#### **Section 4. Fees and Penalties**

After due notice and a public hearing, the Select Board, upon recommendation from the Fire Chief, may from time to time adopt and amend a fee schedule associated with this bylaw, a copy of which shall be filed in the office of the Town Clerk and posted on the town's website. Said schedule shall include registration and permit fees, annual fire alarm service fees, reconnection fees, penalties for false alarms and fines associated with violations of any provisions of this bylaw.

#### **Section 5. Registration and Permits**

No person shall place any alarm system in service, or cause any such system to be placed in service after installation in any dwelling, business or place within the Town of Boxborough until such time as said alarm system has been registered with the Department and a permit for said system issued. Any alarm system in service on the effective date hereof shall be registered with the Department within sixty (60) days of notification by the Department of the adoption of this bylaw.

Alarm system permits may be obtained by completion of a registration form provided by the Department and payment of an initial permit fee as specified in the *Schedule of Fees and Penalties*. Permits shall expire on January 1st of every odd numbered year unless renewed. Renewal permits will be issued after payment of a fee as specified in the *Schedule of Fees and Penalties*. It shall be the responsibility of each permit holder to notify the Department in writing within ten (10) days of any change in registration information.

In addition to any other information requested on the registration form the registrant shall submit the names, addresses and telephone numbers of at least two (2) persons who shall have access to said building and alarm system day and night and the knowledge and ability to make, and the responsibility for making said alarm secure in case of activation.

In addition, registration information shall include the name, address and telephone number of the person responsible for servicing the alarm system.

#### **Section 6. Annual Fire Alarm Service Fee**

An annual fee subject to the following provisions shall be paid by the owners of property utilizing the municipal fire alarm system of the Town of Boxborough, when such fire alarm system exists, by connection of a master fire alarm box to the municipal fire alarm system. This fee is intended to offset the projected annual cost to the Town of Boxborough for the operation and maintenance of the master fire alarm system.

- (a) Property owned by or under the jurisdiction of the Town of Boxborough, and School Department of the Town of Boxborough, shall be exempt from payment of the annual fee.
- (b) The fire alarm service fee shall be determined annually by the Boxborough Fire Department, subject to the approval of the Select Board, and shall be specified in the *Schedule of Fees and Penalties*.
- (c) The fee period will be from July 1st through June 30th for the specified fiscal year.
- (d) New master fire alarm boxes installed between July 1st and March 31st will be charged the full amount of the annual fee. New master fire alarm boxes installed between April 1st and June 30th will not be charged until the following fiscal year.
- (e) All bills for the Fire Alarm Service Fee shall be due and payable on July 1st of each fiscal year or thirty (30) days from the mailing date, whichever is the later date.
- (f) In the event that the bill is not paid within thirty (30) days of its due date, the service shall be disconnected, and notification of disconnection be mailed to the owner.

- (g) In the event that service is disconnected, the service may be reconnected upon payment of any outstanding bills and a reconnection fee, as specified in the *Schedule of Fees and Penalties*.

**Section 7 Regulations**

- (a) No alarm system shall be installed until the plans and specifications relating to said alarm system have been approved by the Fire Chief. The Fire Chief shall have the right at all reasonable times to inspect any alarm system within his jurisdiction.
- (b) The location of all alarm system components shall be provided on a floor plan to be kept at the site of the alarm system in or adjacent to the alarm system panel.

**Section 8 Secured Key Access**

Any building other than a residential building of less than six (6) units which has an alarm system or other fire protection system shall provide a secure Key Box installed in a location accessible to the Department in case of an emergency. This Key Box shall contain keys to the structure served by the alarm system; keys to fire alarm control panels and other keys necessary to operate or service fire protection systems. In addition, if required by the Fire Chief, a lock-box sufficient in size, shall be obtained and shall contain a list and Material Safety Data Sheet for all hazardous substances present on the site in significant quantities. As used herein the phrases “hazardous substances” and “significant quantities” shall be defined in accordance with applicable Town, State of Massachusetts and Federal Regulations governing the storage of these substances.

The Key Box shall be a type approved by the Fire Chief and compatible with the Key Box system presently in use. The Key Box shall be located and installed as approved by the Chief.

No permit for an alarm system as required pursuant to Section 5 shall be issued until the permit applicant has first installed a Key Box as specified above.

Any building owner violating Section 8 of this bylaw after receiving due notice by the Department shall be subject to a fine as specified in the *Schedule of Fees and Penalties*.

**Section 9 Response**

- (a) Except as provided in this section, when any alarm system is activated, the Department shall respond to the alarm and notify the person or persons listed in the registration form as having responsibility for securing said alarm system. Said person shall immediately go the place where the alarm is sounding to meet the fire officers, secure the building and reset the alarm.

Should any person responsible for securing and resetting any alarm system, when notified of its activation, refuse to respond pursuant to this section or within a reasonable time period, the officers on the scene shall check the property thoroughly, silence the alarm and secure the location as much as possible. If in the opinion of the fire officer in charge, the cause for the alarm is readily apparent and the system can be readily reset by a reset switch provided for this purpose, the system will be reset.

- (b) If any dwelling, building or place is required by law to maintain a fire alarm system, as herein defined, and if said alarm system fails to function and cannot be returned to service within a reasonable time, and if in the opinion of the Fire Chief or Officer in Charge the absence of a properly functioning alarm system may pose a threat to life and property, the Fire Chief or Officer may require the special duty assignment of one or

more firefighters to patrol the premises until the alarm system has been returned to service. The cost of any special duty assignment shall be the responsibility of the alarm system permit holder. Payment for such special duty services shall be made at such rates and in accordance with such terms as are established pursuant to the Personnel Classification Plan or other Contractual Agreement which is then in effect, provided, however, that notwithstanding the provisions of the immediately preceding sentence, payments shall be in an amount not less than that required to reimburse firefighters at one and one-half times their regular salary rate.

**Section 10 False Alarms - Errors, Mistakes or Malfunctions; Penalty**

- (a) No alarm system shall be activated by error, mistake or malfunction in any dwelling, building or place, when no fire emergency exists which results in the response of the Department.
- (b) The following fines and charges shall be imposed upon the alarm system permit holder for activation of an alarm system by error, mistake or malfunction, as the case may be, in violation of subsection (a) hereof:
  - (1) Up to three (3) such false fire alarms may occur in a one year period without the imposition of a penalty.
  - (2) The fourth (4th) such false alarm and every such subsequent false fire alarm during any one year period shall result in a fine per false alarm in an amount specified in the Schedule of Fees and Penalties.
- (c) As soon as possible after the second (2nd) such false alarm, and if time permits, a registered written warning shall be sent by the Department to the alarm system permit holder.
- (d) Upon occurrence of the third (3rd) such false alarm, a written order from the Department requiring the alarm system to be inspected and the Department notified of corrective action taken shall be issued to the alarm system permit holder.

**Section 11 Same-Intentional; Penalty**

- (a) No person shall knowingly or intentionally activate any alarm system when no fire emergency exists.
- (b) No person shall knowingly or intentionally test, repair, adjust, alter or perform maintenance on an alarm system, or cause the same to be tested, repaired, adjusted, altered or maintained if such action could result in a false alarm without first notifying the Department and receiving approval for same. The Department shall be notified immediately upon completion of any such test, repair, adjustment, alteration or maintenance. The Fire Chief may restrict or refuse to permit the testing, repair, adjustment, alteration or maintenance of an alarm system if such could result in a false alarm when such restriction or refusal is necessary due to manpower limitations.
- (c) Any person who violates subsections (a) or (b) of this section shall be fined an amount as specified in the *Schedule of Fees and Penalties*, and where applicable, may additionally be subject to prosecution under the Massachusetts General Laws for falsely reporting an incident. All fines assessed hereunder shall be paid to the Town Treasurer for deposit in the General Fund.

**Section 13 Exterior Audible Alarm-Duration**

Unless required by law or specifically prohibited by manufacturers listing, no alarm system which produces an exterior audible signal shall be installed unless its operation is automatically restricted to a maximum of thirty (30) minutes or the system is provided with an alarm silence switch in a locked cabinet of a type approved by the Fire Chief. Any exterior audible alarm system in use as of the effective date of this chapter must comply with this section within one hundred twenty (120) days of notification by the Department of adoption of this bylaw.

No liability whatsoever is assumed by the Town of Boxborough for the failure of such alarm systems or monitoring facilities or for failure to respond to alarms, or for any other act or omission in connections with such alarm systems. ## THE PRESERVATION OF HISTORICALLY SIGNIFICANT BUILDINGS

### Section 1 Intent and Purpose

This Bylaw is enacted for the purpose of preserving and protecting significant buildings within the Town which constitute or reflect distinctive features of the architectural, cultural, economic, political or social history of the Town and to limit the detrimental effect of demolition of such buildings on the character of the Town. Through this Bylaw, owners of preferably preserved buildings are encouraged to seek out alternative options that will preserve, rehabilitate or restore such buildings and residents of the Town are alerted to impending demolitions of significant buildings. By preserving and protecting significant buildings, this Bylaw promotes the public welfare by making the Town a more attractive and desirable place in which to live and work. To achieve these purposes the Historical Commission is authorized to advise the Building Inspector with respect to demolition permit applications. The issuance of demolition permits is regulated as provided by this Bylaw.

### Section 2 Definitions

**APPLICANT** - Any person or entity who files an application for a demolition permit. If the applicant is not the owner of the premises upon which the subject building is situated, the owner must indicate on or with the application his/her assent to the filing of the application.

**APPLICATION** - An application for the demolition of a building.

**BUILDING** - Any structure assembled in a fixed location, having a roof supported by columns or walls, to form a shelter for persons, animals or property.

**BUILDING INSPECTOR** - The person occupying the office of Building Inspector or the person otherwise authorized to issue demolition permits in the Town of Boxborough.

**COMMISSION** – The Boxborough Historical Commission.

**DEMOLITION** - Any act of pulling down, destroying, removing, dismantling or razing a building or commencing the work of total or substantial destruction with the intent of completing the same.

**DEMOLITION PERMIT** - The building permit issued by the Building Inspector for a demolition of a building, excluding a building permit issued solely for the demolition of the interior of a building.

**PREFERABLY PRESERVED** - Any significant building which the Commission determines, following a public hearing, that it is in the public interest to be preserved rather than demolished. A preferably preserved building is subject to the twelve (12) month demolition delay period of this Bylaw unless an earlier demolition permit is allowed under provisions of paragraph 3.12 of this Bylaw.

**SIGNIFICANT BUILDING** – Any building or portion thereof which appears on the list of historically significant buildings generated by the Historical Commission. This list is maintained by the Commission, is supplied to the Building Inspector for purposes of this Bylaw and is part of the public record. Included on this list shall be any building or portion thereof which:

- a. is listed on, or is within an area listed on, the National Register of Historic Places; or

- is the subject of a pending application on said National Register; or
- b. is included in the Historical Resources Inventory prepared by the Commission including those buildings listed for which complete surveys may be pending and which is voted onto said historically significant list by the Commission; or
  - c. has been determined by vote of the Commission to be historically or architecturally significant in terms of period, style, method of building construction or association with a recognized architect or builder or by reason of its association with a person or event of importance to the Town's history provided that the owner of such building and the Building Inspector have been notified, in hand or by certified mail, within ten (10) days prior to such a vote.

### **Section 3 Procedure**

3.1 No demolition of a significant building or any portion thereof a significant building shall be permitted except in conformance with the provisions of this Bylaw.

3.2 Upon receipt of an application for a demolition permit for a significant building the Building Inspector shall forward a copy thereof to the Commission. No demolition permit shall be issued at that time.

3.3 An applicant proposing to demolish a building subject to this Bylaw shall file with the Building Inspector an application containing the following information:

- The address of the building to be demolished.
- The owner's name, address and telephone number.
- A description of the building.
- The reason for requesting a demolition permit.
- A brief description of the proposed reuse, reconstruction or replacement.
- A photograph or photograph(s) of the building.

3.4 The Building Inspector shall within seven (7) days forward a copy of the application to the Commission. The Commission shall, within fifteen (15) days after receipt of the application, make a written confirmation of whether the building is still considered significant.

3.5 Upon determination by the Commission that the building is *no longer considered* significant, *due to its present condition or status*, the Commission shall so notify the Building Inspector and applicant in writing. The Building Inspector may then issue the demolition permit. *The subject building shall be removed from the historically significant list and no further action taken under provisions of this bylaw.*

3.6 Upon determination by the Commission that the building *remains* significant, the Commission shall so notify the Building Inspector and the applicant in writing. No demolition permit may be issued at this time. If the Commission does not notify the Building Inspector within fifteen (15) days of receipt of the application, the Building Inspector may proceed to issue the demolition permit.

3.7 If the Commission confirms that the building is significant, it shall hold a public hearing within thirty (30) days of the written notification to the Building Inspector. The Commission shall hold a public hearing and shall give public notice thereof by publishing notice of the time, place and purpose of the hearing in a local newspaper at least fourteen (14) days prior to said hearing. Also the Commission shall, within seven (7) days prior to the date of said hearing, mail

a copy of the notice to the applicant and to the Building Inspector.

3.8 The Commission shall decide at the public hearing or within fourteen (14) days after the public hearing whether the building should be preferably preserved. If agreed to in writing by the applicant, the determination of the Commission may be postponed.

3.9 If the Commission determines that the building is not preferably preserved, the Commission shall so notify the Building Inspector and applicant in writing. The Building Inspector may then issue the demolition permit.

3.10 If the Commission determines that the building is preferably preserved, the Commission shall notify the Building Inspector and applicant in writing. No demolition permit may then be issued for a period of twelve (12) months from the date of the determination unless otherwise agreed to by the Commission. If the Commission does not so notify the Building Inspector in writing within twenty-one (21) days of the public hearing, the Building Inspector may issue the demolition permit.

3.11 Upon a determination by the Commission that any building which is the subject of an application is a preferably preserved building, no building permit for new construction or alterations on the premises shall be issued for a period of twelve (12) months from the date of the determination unless otherwise agreed to by the Commission.

3.12 Notwithstanding the preceding sections, the Building Inspector may issue a demolition permit for a preferably preserved significant building at any time after receipt of written advice from the Commission to the effect that:

- i. the Commission is satisfied that there is no reasonable likelihood that either the owner or some other person or group is willing to purchase, preserve, rehabilitate or restore such building, or
- ii. the Commission is satisfied that for at least twelve months the owner has made continuing, bona fide and reasonable efforts to locate a purchaser to preserve, rehabilitate and restore the subject building and that such efforts were unsuccessful, or
- iii. the Commission is satisfied that the owner's actions do not detract from the historical character of the property.

3.13 Following the twelve month delay period, the Building Inspector may issue the demolition permit.

#### **Section 4 Emergency Demolition**

4.1 Notwithstanding the foregoing provisions if after an inspection, the Building Inspector finds that a building subject to this Bylaw is found to pose an immediate threat to public health or safety due to its deteriorated condition and that there is no reasonable alternative to the immediate demolition of the building or structure, then the Building Inspector may issue an emergency demolition permit to the owner of the building or structure. In addition, if the Building Inspector finds that the building is structurally unsound or unfit for human habitation a demolition permit may be issued. The Building Inspector shall then prepare a report explaining the condition of the building and the basis for his decision, which shall be forwarded to the Commission.

4.2 No provision of this Bylaw is intended to conflict with any obligations or rights under G.L. c. 143 regarding removal or demolition of dangerous or abandoned structures.

**Section 5        Enforcement and Remedies**

5.1        The Commission and/or the Building Inspector may enforce the requirements of this Bylaw.

5.2        No building permit shall be issued with respect to any premises upon which a significant building has been voluntarily demolished in violation of this Bylaw for a period of two (2) years from the date of such demolition. As used herein “premises” includes the parcel of land upon which the demolished significant building was located.

5.3        Upon the determination by the Commission that a building is a preferably preserved significant building, the owner shall be responsible for properly securing the building if vacant, to the satisfaction of the Building Inspector. Should the owner fail to secure said building, the loss of such building through fire or other cause shall be considered voluntary demolition for the purposes of paragraph 5.2.

**Section 6        Severability**

In case any section, paragraph or part of this Bylaw be for any reason declared invalid or unconstitutional by any court, every other section, paragraph, and part shall continue in full force and effect.

## **RIGHT TO FARM BYLAW**

### **Section 1 Legislative Purpose and Intent**

The purpose and intent of this Bylaw is to state with emphasis the Right to Farm accorded to all citizens of the Commonwealth under Article 97, of the Constitution, and all state statutes and regulations thereunder including but not limited to Massachusetts General Laws Chapter 40A, Section 3, Paragraph 1; Chapter 90, Section 9, Chapter 111, Section 125A and Chapter 128 Section 1A. We the citizens of Boxborough restate and republish these rights pursuant to the Town's authority conferred by Article 89 of the Articles of Amendment of the Massachusetts Constitution ("Home Rule Amendment").

This General Bylaw encourages the pursuit of agriculture, promotes agriculture-based economic opportunities, and protects farmlands within the Town of Boxborough by allowing agricultural uses and related activities to function with minimal conflict with abutters and Town agencies. This Bylaw shall apply to all jurisdictional areas within the Town.

### **Section 2 Definitions**

The word "farm" shall include any parcel or contiguous parcels of land, or water bodies used for the primary purpose of commercial agriculture, or accessory thereto.

The words "farming" or "agriculture" or their derivatives shall include, but not be limited to the following:

- farming in all its branches and the cultivation and tillage of the soil;
- dairying;
- production, cultivation, growing, and harvesting of any agricultural, aquacultural, floricultural, viticultural, or horticultural commodities;
- growing and harvesting of forest products upon forest land, and any other forestry or lumbering operations;
- raising of livestock including horses;
- keeping of horses as a commercial enterprise; and
- keeping and raising of poultry, swine, cattle, ratites (such as emus, ostriches and rheas) and camelids (such as llamas and camels), and other domesticated animals for food and other agricultural purposes, including bees and fur-bearing animals.

"Farming" shall encompass activities including, but not limited to, the following:

- operation and transportation of slow-moving farm equipment over roads within the Town;
- control of pests, including, but not limited to, insects, weeds, predators and disease organism of plants and animals;
- application of manure, fertilizers and pesticides;
- conducting agriculture-related educational and farm-based recreational activities, including agri-tourism, provided that the activities are related to marketing the agricultural output or services of the farm;

- processing and packaging of the agricultural output of the farm and the operation of a farmer's market or farm stand including signage thereto;
- maintenance, repair, or storage of seasonal equipment, or apparatus owned or leased by the farm owner or manager used expressly for the purpose of propagation, processing, management, or sale of the agricultural products; and
- on-farm relocation of earth and the clearing of ground for farming operations.

### **Section 3 Right To Farm Declaration**

The Right to Farm is hereby recognized to exist within the Town of Boxborough. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood, community, and society in general. The benefits and protections of this Bylaw are intended to apply exclusively to those commercial agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Bylaw shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

### **Section 4 Signage**

There shall be maintained on roadways at town borders signage stating that Boxborough is a "Right to Farm" community.

### **Section 5 Resolution of Disputes**

Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Code Administration Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have. The Code Administration Officer or Select Board may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the referring Town authority within an agreed upon time frame.

The Board of Health, except in cases of imminent danger or public health risk, may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

to be removed or torn down, have fallen into disrepair or have been previously torn down, removed or destroyed.

**Section 7: ENFORCEMENT**

No removal, tearing down, or destruction of stone walls within or on the boundary of a Town Way shall occur without prior written approval from the Board, excepting only temporary openings as outlined in Section 4. The plans shall show the location of wetland boundaries and shall be at a scale of 1" = 40' or any other scale that the Conservation Commission may approve. In addition, the notice of intent shall show lot lines, town ways, the names of all abutters and any property owner within 300 feet of the property line of the land where the activity is proposed, the location of all wet areas and buffers, estimated distances, existing buildings, and all changes proposed. Notification of all abutters and any property owner within 300 feet of the property line of the land where the activity is proposed shall be at the applicant's expense, and shall state where copies of the notice of intent may be examined and obtained and where information regarding the date, time and location of the public hearing may be obtained. Notification shall be in writing and delivered by hand, or by certified mail, return receipt requested, or by certificate of mailing. Proof of such notification, with a copy of the notice mailed or hand delivered, shall be filed with the Conservation Commission. In order to comply with the provisions of this Bylaw, each such notice must be complete as filed. No such Notice shall be sent before all permits, variances and approvals required by the Bylaws of the Town of Boxborough with respect to the

proposed activity, which are obtainable at the time of such notice, have been applied for or obtained. Such notice shall include any information submitted in connection with such permits, variances and approvals which is necessary to describe the effect of the proposed activity on the environment.

The Notice of Intent shall be sent by certified mail, or be hand delivered to the Conservation Commission or its authorized representative. A person filing a Notice of Intent by hand shall be given a dated receipt.

- 4.2 **Public Hearing:** The Conservation Commission shall hold a public hearing on the activity proposed within twenty-one (21) days of receiving such Notice of Intent. Notice of the time and place of such hearing shall be given by the Conservation Commission not less than five (5) days prior to the public hearing, by publication in a newspaper of general circulation in Boxborough and by mailing a notice by certified mail to the applicant, owner, if a person other than the applicant, and to all abutters to the area subject to the Notice of Intent. The Commission shall also send the notice of the hearing to the Board of Health, the Town Clerk, the Planning Board, the Select Board, and the Zoning Board of Appeals. All publications and notices shall contain the name of the applicant, a description of the area where the activity is proposed by street address, if any or any other adequate identification of the location, of the area or premises which is the subject of the notice, the date, time and place of the public hearing, the subject matter of the hearing, and the nature of action or relief requested if any. Such hearing may be held at the same time and place as any public hearing required to be held under G.L. Chapter 40A, section 9, G.L. Chapter 131, section 40 or otherwise. If the Commission determines that additional information is necessary, the hearing may be continued to a future date for as many hearings as may be deemed necessary by the Commission. The Conservation Commission, its members and employees, may enter upon privately owned land for the purpose of performing their duties under this Bylaw.
- 4.3 **Burden of Proof:** The applicant shall bear the burden of proving that the activity proposed in the notice of intent will not harm any of the interests protected by this ByLaw. The Commission may continue any such hearing to another date to receive additional evidence concerning the wetland, buffer zone and the activity proposed.
- 4.4 **Conservation Commission Action:** If, after the hearing, the Conservation Commission shall determine that the activity proposed is significant to one or more of the interests of this Bylaw, the Conservation Commission may, by written order issued within twenty-one (21) days after such hearing, impose such conditions, safeguards and limitations on time and use upon such activity as it deems necessary to protect those interests; but the Commission may prohibit such activity altogether, in the event that it finds that the interests of this Bylaw can not be preserved and protected by the imposition of such conditions, safeguards or limitations. Due consideration shall be given to any hardship, financial or otherwise, that may be suffered by the applicant in the event that the activity proposed shall be prohibited. If the Conservation Commission shall determine that the activity proposed does not require the imposition of conditions to preserve and protect the interests of this By-Law, the applicant shall be so notified in writing.
- 4.5 **Security:** Before issuing an Order of Conditions, the Conservation Commission may require the applicant, or the owner of the area where the activity proposed is to be carried out, to execute and deliver to the Town Treasurer a covenant in a form suitable for recording, acceptable to the Town Counsel and running with the land, to secure compliance by the applicant and owner with all of the conditions, safeguards and limitations contained in any Order of Conditions requested pursuant to this Bylaw. The Commission may also require the applicant and/or the owner to execute and deposit money, negotiable securities and or a proper bond of a surety company qualified to do business in the Commonwealth of

Massachusetts and satisfactory to the Town Counsel, sufficient, in the opinion of the Commission, to secure their compliance with the Order of Conditions applied for. The amount of security required by this Commission shall not, however, exceed either the estimated cost of the work required to secure the faithful and satisfactory compliance with the final Order of Conditions, or the estimated cost of the work required to restore the wetlands, buffer zone and other properties that may be affected if the work is not performed as required, whichever is greater.

- 4.6 Order of Conditions: All Orders of Conditions shall expire three (3) years after the date of issuance, unless renewed prior to their expiration. An order of conditions may be renewed for one (1) year upon the request of the applicant. No activity governed by an Order of Conditions shall be carried on unless and until all permits, approvals and variances required by the Bylaws of the Town of Boxborough shall have been obtained, such order of conditions or notification shall have been recorded at the Middlesex South District Registry of Deeds or in the South Middlesex Registry District of the Land Court and until all applicable appeal periods have expired. The Conservation Commission shall have the right to file its Order of Conditions with said Registry or Registry District if the applicant shall fail to do so within sixty (60) days. In the event that an Order of Conditions issued pursuant to this Bylaw is identical to a final Order of Conditions issued pursuant to the provisions of G.L. Chapter 131, section 40, only one (1) such order need be recorded.
- 4.7 Failure to Act: If the Conservation Commission shall have failed to hold a public hearing within the twenty-one (21) day period required, or if after holding such a hearing, it shall have failed within twenty-one (21) days from the date of the adjournment of the public hearing to issue an Order of Conditions, the applicant may notify the Select Board of such failure and the Select Board shall, within ten (10) days, instruct the Commission to act within a period of ten (10) days from the date of their instruction. If the Conservation Commission shall fail, once more, to act within the time limited by the Select Board, the activity proposed shall be deemed to require no conditions or safeguards.
- 4.8 Modification or Amendment: The Conservation Commission shall have the power, on its own motion or upon the petition of any person interested, to modify or amend any such Order of Conditions after notice to all persons interested and a public hearing.
- 5.0 CERTIFICATE OF COMPLIANCE. The Conservation Commission shall, within thirty (30) days after receiving a request therefor, inspect the wetlands and buffer zone where the activity governed by an Order of Conditions was carried out and issue a Certificate of Compliance to the owner of the property in a form suitable for recording, if it shall determine that all of the activity or activities, or portions thereof, limited thereby have been completed in accord with said Order.
- 6.0 RESPONSIBILITY FOR COMPLIANCE. Any person who purchases, inherits or otherwise acquires real estate upon which work has been done in violation of the provisions of this Bylaw or in violation of any order issued thereunder, shall forthwith comply with any such Order of Conditions or restore such real estate to its condition prior to any such violation; provided, however, that no action, civil or criminal, shall be brought against such person unless such action is commenced within three (3) years following the recording of the deed or the date of the death by which such real estate was acquired by such person.
- 7.0 RULES AND REGULATIONS. After due notice and a public hearing, the Commission may from time to time adopt and promulgate rules and regulations to carry out the purposes of this Bylaw, provided, however, that:
- 7.1 said rules and regulations shall not be inconsistent with this Bylaw;
- 7.2 a copy of said rules and regulations shall be filed in the office of the Town Clerk;

- 7.3 any amendment or change of rules and regulations shall not apply to any Order of Conditions outstanding; and
  - 7.4 the failure of the Commission to promulgate such rules and regulations or a declaration by a court of law that they, or any of them, are invalid, shall not act to suspend or invalidate the effect of this Bylaw.
- 8.0 **ENFORCEMENT.** In accord with the provisions of G.L. Chapter 40, sections 21D and 31, as well as every other authority and power that may have been or may hereafter be conferred upon it, the Town of Boxborough may enforce the provisions of this Bylaw, restrain violations thereof and seek injunctions and judgments to secure compliance with its Order of Conditions. Without limiting the generality of the foregoing:
- 8.1 Any person who violates any provision of this Bylaw or of any Order of Conditions issued thereunder shall be punished by a fine of not more than two hundred (\$200) dollars. Each day during which a violation continues shall constitute a separate offense.
  - 8.2 In the event of a violation of this Bylaw or of any order issued thereunder, the Inspector of Buildings may deliver a stop order to the owner, the applicant or his agent by certified mail, return receipt requested, and by posting the same in a conspicuous location on said site. The order shall describe the nature of the violation, and the date on which said order shall expire, which date shall not be greater than six (6) days after the date of the order. Any person who shall violate the provisions of a stop order shall be deemed in violation of the Bylaw; but the failure of the Inspector to deliver a stop order for any reason shall not prevent the Town from pursuing any other legal remedy at law or in equity to restrain violations of this Bylaw and to secure compliance with its orders.
  - 8.3 The penalty provisions of this Bylaw may be imposed upon the owner, the applicant, his general agent, architect(s), engineer(s), contractor(s), or any and all persons having an interest in the area affected by the activity or activities which shall have violated this Bylaw or of any order issued pursuant thereto, including holders of mortgages, attachments and mechanics liens.
  - 8.4 The Town of Boxborough shall be the beneficiary of all fines imposed on account of the violation of this Bylaw in order to defray the expense of enforcing the same.
  - 8.5 This Bylaw may be enforced by a police officer of the Town of Boxborough, the Inspector of Buildings, the Conservation Commission or the Select Board.
  - 8.6 Upon request of the Conservation Commission, the Select Board shall instruct the Town Counsel to initiate such legal action as may be necessary to restrain violations of this Bylaw and to secure compliance with orders of the Commission.
- 9.0 **APPEALS.** In the event that any person shall be aggrieved by a decision of the Conservation Commission under this Bylaw, or by its failure to act thereunder, such person may bring an action in the nature of certiorari under G.L. Chapter 249, section 4.
- 10.0 **SEVERABILITY.** The invalidity of any section(s) or provision(s) of this Bylaw shall not invalidate any other section or provision thereof.
